

Amdouni Yosra

My professional experience acquired at WAAVP

I have received the Award of the World Association for the Advancement of Veterinary Parasitology (WAAVP) African Foundation Scholarships. It was an opportunity for me to get trained, interact with people, and learn new knowledge in parasitology.

During the 27th annual conference of the WAAVP, innovative techniques were used to make attendees understand subjects better and help you to receive intelligent insights from some of the leading professionals. Hear experts in parasitology who share advice and insights into topics that my researches benefit from, was a motivating factor for personal as well as professional growth.

The group discussions and question answer rounds that allow every individual to interact with other professionals. It also allows me to address key issues and clear all my doubts have regarding the concerned topics. Discussions enable the young researchers in parasitology have their problems solved without having to read through lengthy documents and books.

Attending the 27th annual conference of the WAAVP gives me the chance to interact with other people and other expert in parasitology; it was the best way to meet other professionals and share my experiences with each other, and to be part of such a conference was also enabling me to integrate with my professional community. Sharing meals with other attendees at the conference was also a great way to interact and understand my profession better.
